

Take Home Message

Achieving our shared energy, environmental, economic goals will require a partnership between the state, regional organizations, and local governments.

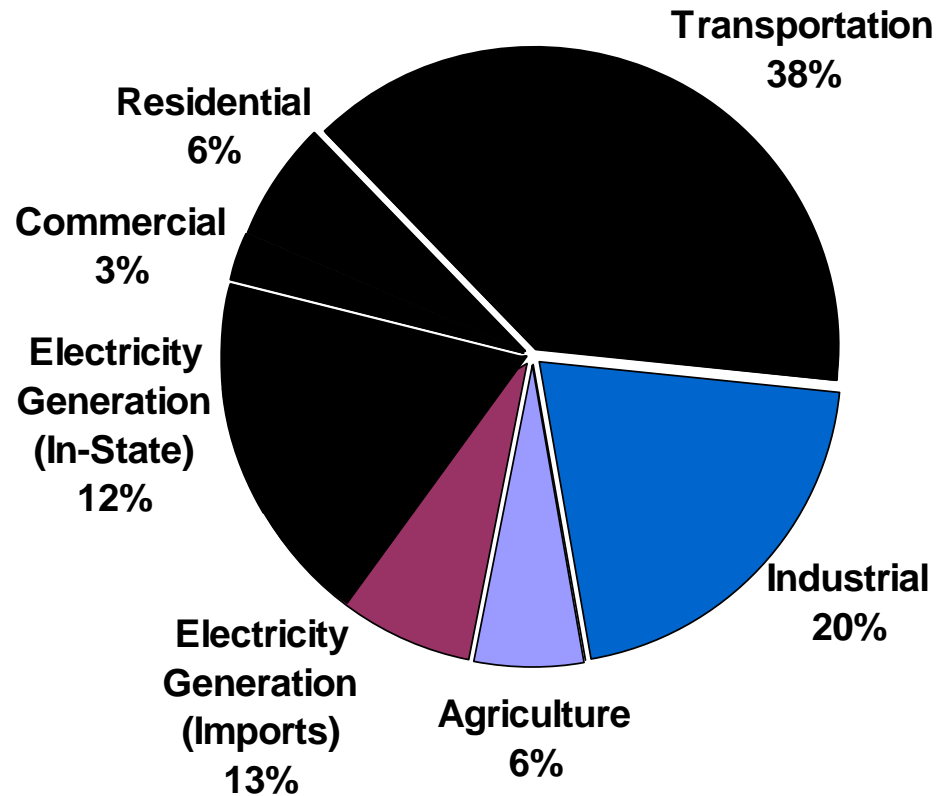

Magnitude of the Challenge

Local Government Leaders

GHG and The “Built Environment”

SB 375

Landmark Legislation

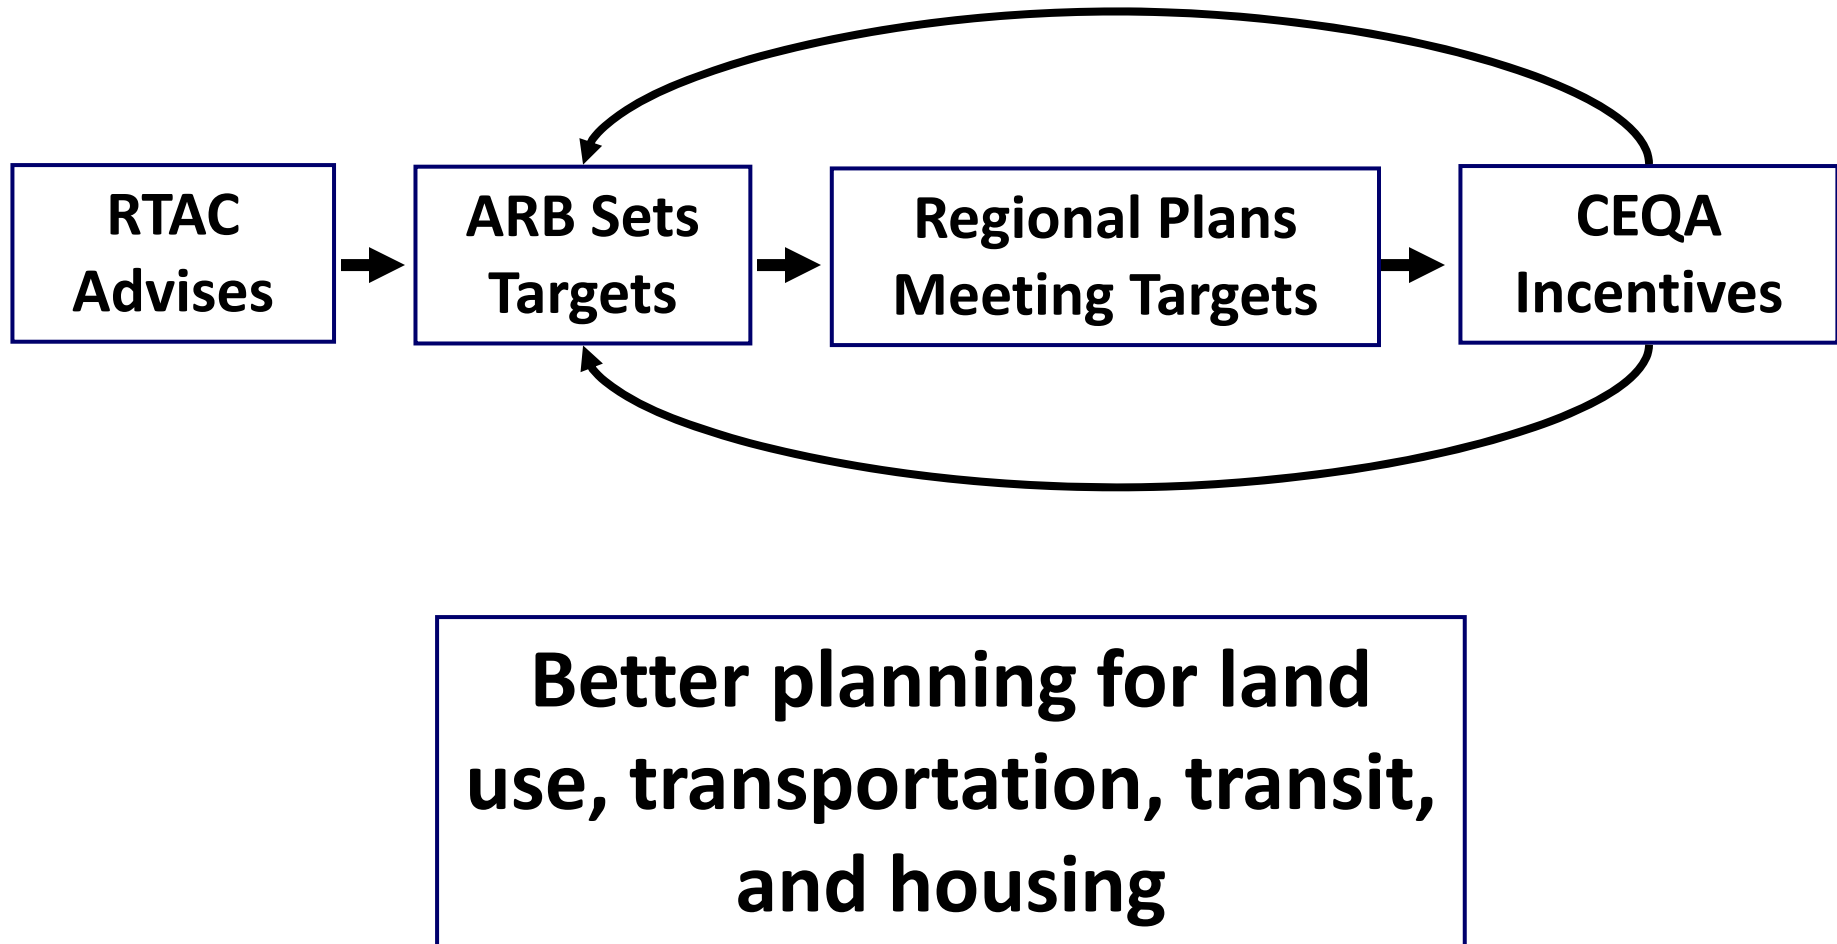

“In order to reach California’s greenhouse gas goals we must rethink how we design our communities”

- Governor’s Fact Sheet on SB 375

“Nearly half of what will be the built environment in 2030 doesn’t even exist yet, giving the current generation a vital opportunity to reshape future development.”
